

Bobbie Hall was raised with all sorts of animals. She showed a Great Dane in Juniors - she was 4'11" and won on the cute factor as much as her talent! As a young newlywed she owned a Standard Poodle - a retired-rehomed War dog. Puffles was one tough dog! Loving the breed, she began breeding Toys Poodles with the temperaments of bigger dogs.

Bobbie's friend Jan Skidmore told her she was looking at a litter of Dobermans. Bobbie thought she was nuts - but decided to go look with Jan. To make a very long story short, Jan bought a red puppy dog from that litter. The year was 1972.

To learn more about the breed, both Bobbie and Leslie joined the Doberman Pinscher Club of The Tappan Zee. The membership was large with some very knowledgeable people, including Ray Carlisle - publisher of Top Dobe magazine and owner of Jason's litter sister, Marwood Agent Ninety-Nine, and their sire Ch. Tranell's Maxwell Smart; dog photographer and Doberman breeder Alton Anderson; Ken Berenson - instrumental in developing judges' education; Dot and Bob Roberts of Rockelle Dobermans - who became close friends, and others.

Jason became Ch. Marwood Anubis de Scudamore CD, ROM, the first Doberman Terry Lazzaro Hundt handled to a championship. Terry also owned Jason's grand sire - Ch. Fanfare's Ringmaster. Jason was sired by Am/Can Ch. Tranell's Maxwell Smart, a Top 10 winning son of Ringer.

One of Jason's first litters was out of Reikon of Stocklea, a Ringer daughter, whelped in September 1974 and bred by our good friend Pat Stock. Pat owned a boarding kennel where both Leslie, and brother John had worked. We felt this linebred litter was a perfect place to begin - the connections with friends was an added plus.

Bobbie bought 2 puppies from that litter, a black bitch - Alcyone of Stocklea for herself and a red bitch - Sharatan of Stocklea for daughter Leslie.

These puppies planted that eventually became Pajant Dobermans.

## Pajant Dobermans Bobbie & Leslie Hall

Alcyone was shown for a bit but Bobbie was savvy enough to see she was not going to finish - easily anyway.

Shara was disqualified from the breed ring in one of her first AKC shows; Forrest Hall (no relation) marked in his book 5 missing teeth. She had 3, was reinstated and after much deliberation, spayed.

Leslie fell in love with the red BBE bitch entry who was WB at the 1973 DPCA National. Handled by teenaged Gwen Satalino - at her first National, this puppy - just over a year old - was from Alisaton's first litter and became Ch. Alisaton's Kinderwicke WAC.

Leslie began working as a graphic designer for Top Dobe the end of 1974 and was able to bring Shara to work. Through Top Dobe and Ray, Leslie

met an amazing group of people who walked through the magazine's doors, picking their brains doggedly. One of those was Gwen.

Telling her she would like a black bitch out of Kinder, who was being bred to Demetrius, Gwen said - no! She gave her reasons ...

So, Leslie's black Kinder daughter became a red male out of Kinder's full sister,

Ch. Alisaton's Intimate Miss, the 1974 DPCA Grand Prize Futurity winner and Reserve Winners Bitch.

Tie came home in 1977, was co-owned with Gwen and sired by Ch. Alisaton Damascus, a Kinder son (from the litter Leslie tried getting the black bitch from). Gwen showed Tie in the puppy class and he was sent home to grow up.

On April 1, 1978 a tragic drowning accident claimed the lives of the 17-month-old Tie and Bobbie's Alcyone. All three Dobermans chased a deer off the property and fell through the ice on a pond coming back home. Shara was the only one to return.

Three days later Pat and Jan arrived with a 4.5 month old red puppy bitch that Bobbie had seen and commented on when looking at the litter a month or so earlier. Bred by Rich and Evie Kocot, we named her Pajant - as in beauty - a tribute to the two ladies who worked magic to get this puppy into Bobbie's arms.

Pajant became Ch. Kocot Pajant de Scudamore CDX, ROM, finishing with 3 owner/handled (by Bobbie) majors - including a 5-point major under the renowned judge Mr. Henry Stoecker. Terry Lazzaro Hundt also showed Pajant. Paj was the kind of bitch that made judges take a second look; not one you'd stop at looking down the line, but her movement made her extremely competitive.

Ch. Kocot Pajant de Scudamore CDX, ROM in the classes - circa 1979 - with handler Terry Lazzaro Hundt.

*So, that's the story leading up to Pajant Dobermans.*

Pajant had a dark shallow-set, round eye – with dark pigment. Dot used to tell Bobbie she should show Paj with a bag over her head ... although Paj had beautiful planes, good underjaw and a big LOUD mouth (with 42 correctly placed teeth). She was the fun police – barking at kids running on the show grounds, puppies getting too rambunctious and anyone else she felt like telling off.

Leslie was ready for another puppy when Gwen asked her to come see a litter of Kinder puppies born in November 1979. Once again, Leslie returned home with a red male, he became Ch. Alisaton Hot Shot CD, ROM.

Through DPC of TZ Bobbie became tight friends with the Roberts' family.

When searching for the perfect stud dog to breed Pajant to, the choice was simple! Dot and Bob's Top 20 Ch. Rockelle's Butch Cassidy WAC. Butch had what Pajant needed (and vice-versa) and had a pedigree that created a nicely Damasyn-linebred litter. Both were short-backed, good-boned, great

Ch. Kocot Pajant de Scudamore CDX, ROM with owner/handler Bobbie Hall - BOS under breed legend Peggy Adamson.

temperaments, with tight feet, short hocks and excellent movement. Pajant was hard-bodied, and tight-skinned but had long pasterns – they were strong and she never toed in. Butch had gorgeous forequarters and gorgeous head with a dark, deep set, almond eye. He was a tad soft in the middle. We'll take soft toplines to a roach of any sort!

This red-to-red litter of 9, 8 males – yes, 8 red males and 1 bitch - was born April 26, 1981. When there was male after male after male, Dot and Bobbie put a pink collar on the last one born, hoping for a bitch. Two more males! The bitch was the last puppy.

These puppies were 'graded' by many people – including Jeff Brucker, George

Rood, Don Simmons, Carlos Rojas, Terry Hundt, Gwen DeMilta (when we asked what she thought of the breeding said we would get little Pajants and little Butches). Two came out on top on everyone's list. Pink rick-rack and white rick-rack. Pink boy went to the Roberts as their stud puppy and he became MultiBIS/MultiBISS Ch. Pajant's Encore v. Rockelle WAC – Cory. Cory finished at 11 months with a BOB over 100+ along the way. White collar finished at around 18 months and was Multi-Group winning Am/Can Ch. Pajant's Curtin' Call v. Rockelle – Boy. Both produced champions, and were bred sparingly. The third to finish in our first litter was blue collar – Ch. Pajant's Cent'r Stage v. Rockelle WAC – Cowboy.

Sold to a young man, Gerard Cordi, as a pet (though graded as show) that changed when Cowboy took a 2nd place at his first match ... Gerard was hooked! Cowboy finished entirely from the Am. Bred class - not a usual thing in the early '80s.

Cory kids included Top 20, BIS winning, HIT winners and some of them produced Top 20, BIS and HIT winning get. And, in an unexpected turn of events, Michelle Santana bred Ch. Foxfire All About Me - Jada, to Cory's decades old frozen semen (collected between 1983 and 1987), resulting in an all black litter of 5 whelped in May 2008. One of the bitches from this litter has 6 points - with a 4-point major - in limited showing. Quite exciting, and strange in a "1984" kind of way!

Multi BOB Ch. Pajant's Cent'r Stage v. Rockelle WAC - "Cowboy" (at 13 months).

Multi Group/BISS DPCA A.O.M. Am/Can Ch. Pajant's Curtin' Call v. Rockelle - "Boy"

Multi BIS/BISS Top 20 DPCA A.O.M. Ch. Pajant's Encore v. Rockelle WAC - "Cory"

We repeated the breeding to Butch, but Paj lost the litter a month after Butch died from cardio. Every dog in the Butch x Pajant litter, except for Cent'r Stage who died at 4.5 from post racquetball obstruction surgery, lived into the double digits.

For Pajant's next litter – in 1983 - we chose a young Canadian-bred black male, linebred on Am/Can Ch. Highland's Satan's Image. In Boston - on our way to Canada - when we got news that during his pre-breeding physical it was found he was riddled with cancer; we had a decision to make - not breed her or breed her to...?

With Paj in season, we bred to the dog in our own back yard – the Kinder kid who became Ch. Alisaton Hot Shot CD, ROM.

Hot Shot's pedigree was very similar to Butch's, so we figured we'd be good, and dog-to-dog, they complimented each other. We did not want to 'go there' because he was ours, we did go there due to circumstances and quality. In this litter we had 5 males and 3 bitches – again all red.

We put rick-rack on them in order of birth using horse show placement colors. It's easy to see who's who and instantly recall when they were born. Pink in the first litter was to bring on the bitches ... which didn't work! From then on pink collar is always 5th born.

Bobbie kept pink collar bitch from this litter - Ch. Pajant's Casino Royale CDX, ROM – Zipper. White collar bitch became Ch. Pajant's Moneypenny WAC, who developed CAH shortly after her singleton puppy was whelped. Penny died from post-liver biopsy complications at just under 5 years of age.

Pajant's Diamonds' R Forever, Didi - was sold to an awesome man named Al Griefer who promptly moved to California from upstate New York. Was it something we said?

The Hot Shot x Zipper litter all had full mouths, one male had a close bite, as did his sire.

In 1987 we bred our 3rd litter - Zipper to her half-brother Cory – continuing

Ch. Pajant's Casiino Royale CDX, ROM - "Zipper." Shown winning 5-point major from BBE with Bobbie.

Ch. Pajant's Moneypenny WAC. - "Penny." Owned by our good friend Pam Hayo.

the dominant red theme. There were 5 males and 3 bitches. We spoke to a man from New Hampshire who was interested in one of the bitches. We met him halfway between our homes

Ch. Pajant's Scruples v. Rockelle WAC - "Mori." Cory x Zipper litter.

with the 2 he wanted to see. He went home with purple collar – she became Ch. Pajant's Scruples v. Rockelle WAC – Mori. Leslie kept white collar girl who wound up with 2 missing teeth – continuing her red bitch with missing teeth streak!! Maurice picked the right bitch!

A woman from New Jersey came to look at the puppies, she wanted pink collar male - who was to be Dot and Bob's stud puppy. We kept pushing her toward another, as she did not want to show in breed, but would do obedience. Eventually we wore her down and Barbara Kahn became the proud owner of Pajant's Easy Money. Easy he was not, at least that's what SHE said! He was shown in breed a little, and was pointed, but Barb really hated the breed ring. Danny got his CDX and new furniture because he ate Barb's old furniture. She wrote poems and stories detailing the horrors of her Pajant Doberman. But you know what, she came back a year later and got a black bitch... hmmmmm!

In this litter we had 3 full mouths, two with 1 missing, two with 2 missing and one with 3 missing - all premolars.

In 1988 Didi was bred to a Boy son – Ch. Altacrest C Taskforce Zeravla CDX, ROM. Task was part of an exhibition team that had as the finale the following: Task – a big black male capable of jumping 5 barrels, would enter a building called the Dog Wash. Out would come a Min Pin while the announcer would say – "guess the water was too hot."

Ch. Pajant's Stratego v. Rockelle WAC - "Captain." Mori's litter brother.

We then bred Zipper to Task because we loved what Didi produced. The litter born in June 1988 was amazingly brilliant – stubborn and willful, while being interesting to train! Barb, the gal from New Jersey - got her second 'terror' from that litter - Pajant's Golddigger CDX. Barb is the (Jewish) sister Leslie never had and has remained part of our lives ever since.

A black male kept eyeing Leslie who repeatedly said – "I have your grand sire and we can't have 2 males in the house." Well the puppy knew something the humans didn't, as Hot Shot had to be put down Labor Day weekend in 1988. The black puppy was Leslie's companion and heart dog for 12 years. Pajant's Smoooooth Operator CGC, WAC was pointed, but stopped being shown as his 'mom' could not deal with him losing! He was Reserve in 7 of his first 9 shows, including Specialty majors. He sired 3 champions – each litter was linebred on Pajant's sire – Jason.

In 1990 Maurice decided to breed Mori. We selected Ch. Ravenswood Cairo v Aquarius - a Cryptonite son and one of 11 champions from the Kafka x Vanessa cross. Well, as our luck would have it, Cairo had moved from the East Coast to California, and there was no way we were shipping her. Leslie had given Best in Match to a red male who we found out was Cairo's litter brother, so we did another red-to-red breeding. Maurice whelped the litter of 3 - red males! He kept Cuss - Ch. Pajant's Doin' Hard Time. Pajant's One More Notch earned his CD, and other non-AKC obedience titles. All three had 42 correctly placed teeth.

Deciding to breed Zipper one more time, we bred her to a beautifully fronted black male bred by a very close friend Marijane Szymanski. My-A-Mar's Code Name Secret - Cody - had 10 points and a major. His owner Marian Cacus was new to the show world and we decided to add her as co-breeder on this litter. Cody's temperament was incredible and he had everything Zipper needed and she complimented him. There were 7 puppies in this

Ch. Pajant's Doin' Hard Time - "Cuss." Sired by Ch. Ravenswood Aquarius v. Albelarm out of Mori.

bunch, and the white-collared red bitch - call name Checker - quickly became the apple of Bobbie's eye!

When Cody's breeder came to look at the litter, she stacked Checker and every photo we took had a blurry butt - because she was wagging so fast! Pajant's Check Me Out UD, CGC, TDI, WAC became the second-youngest Doberman to get her CD title - at 6 months and 13 days - with scores in the 190s! This litter was cropped by a vet who came highly recommended by others - it was a disaster! Checker's ears flipped over her head and she had a high set and keyed in the ring - not attractive and she was retired from the breed ring needing a major and a few singles. She was a pretty bitch, softer bodied than we like, beautiful layback of shoulder, excellent neck placement and length/arch of neck, her temperament was phenomenal.

A black male went to a wonderful couple and Charlie - Ch. Pajant's Stand

Ch. Pajant's Stand Out - "Charlie." He's from Zipper's last litter, sired by My-A-Mar's Code Name Secret WAC.

Out was exceptional. Owner/handled by Chuck Fox to some breed wins after finishing - handled by Gwen and Terry in the classes - also pointed by Chuck! Charlie was not a small dog, and he did, indeed, stand out! He had a big head and very long neck, deep bristled with heavy bone and when with Terry he looked a bit Dane-like - but he was beautiful and extremely showy! This litter had full mouths.

In 1993 we bred Mori a second and final time. We bred her to a red (surprise!) BIS/BISS winning Top 20 dog - Ch. Lemil's D Triple Threat. Tripp had a beautiful head, neck, front - deep brisket, good bone. Mori had a harder body, very short back and our famous Pajant roundish shallow set dark eye.

There were three bitches and one male in an outstanding litter. Maurice kept one, she became Ch. Pajant's Unabashed. Charlie's owners, the Foxes, took a bitch who finished quickly - Ch. Pajant's Intrepid Chase.

This litter had full mouths, beautiful fronts, sweet personalities, baaaaadness (that stubborn streak) and long lives.

Our next litter, in 1995, was a half-brother/sister - both Zipper kids. Teaser to Checker. Leslie was going to keep a red bitch, there was only one and we had promised her (if show quality) to a gal who wanted a Checker puppy. So, Leslie 'hated' this person, having never met her, because she was getting HER bitch! Well, that didn't last and Susan Scoles was a fabulous home and did

Pajant's Check Me Out UD, CGC, TDI, WAC. Checker was the second youngest Doberman to get her CD - at 6 months and 13 days. Charlie's litter sister.

right by Roxy - Ch. Pajant's Checkered Past CD, ROM. Susan handled Roxy to a BOB from the classes and is still involved in our lives in a big way.

Bobbie was taken by a gorgeous male, Really, without a doubt one of the most beautiful puppies we produced... Until he hit 7 months or so. It was all downhill after that. Really had a great personality and the always-wagging-butt of his dam. He was, however, stick straight front and rear with a skully head! Didn't matter, he was not going anywhere and was loved more than she thought she could love a male.

We repeated this litter in 1996 and Leslie kept a pet bitch (red of course). Truly - Pajant's In Triplicate CGC - was 13 in May. U-CDX Pajant's In Good Time CDX, AX, AXJ, AD, CGC qualified for the Agility Top 20.

Roxy was bred in 1999 to Ch. Soquel's Thunder Struck III, a heavy-boned, stallion-like dog. There were two live puppies, both black bitches. Susan kept Regal, U-CD Pajant's Vision in Black CD, RN, CGC, WAC and our good friend Melanie Luten got Colby - Pajant's In The Black OA, OAJ, WAC.

Checker had ovarian cancer - in 1998 bilateral mastectomies were all benign, sadly we lost her in 2001 to a meta-static tumor on her heart.

When Gwen heard Checker was gone, she immediately called Leslie and said there was a red puppy bitch she'd like Bobbie to have. So we met Gwen and looked at the puppies. Sired by Ch. Telstar's Icon out of Ch. D'Mascus in Your Face Alisaton, this litter touched our hearts. We whelped and raised the litter Face came from for Gwen, so it felt like we were getting one of our own.

This red bitch is Ch. Alisaton New Face v. Noble House CGC, TDI - Stella. Stella is our second foundation, as we came to a grinding halt when none of our bitches' owners wanted to breed and the one we could breed was not very fertile. We bred Stella just once, in 2006 - with 3 Ch. ROMs to date. At the end of 2007, preparing for her second litter, a Holter recorded some single VPCs so we had her spayed.

Multi BOB Ch. Pajant's Checkered Past CD, ROM - "Roxy." Owner/handled to a BOB from the classes by Susan Scoles.

STELLLLLLA (say with feeling like Brando in A Streetcar Named Desire) has produced quite well! The 3 champions to date - sired by Ch. Van Orman's The Thrill Is Back v Epik - passed the WAE to become ROMs on April 11, 2009. The first to be tested, going back-to-back to become, to our knowledge, the first 3 littermate ROMs in the history of the program.

The litter also had its heartbreaks as one of the bitches died in December - post surgical complications and the only one in the litter living with a big family was put down in May - a brain tumor. Not important in the scheme of things,

Dante was major-pointed and was going out to finish when he got sick. Two other bitches are pointed and may or may not be finished, it's up to their owners (Leslie owns one).

Although we have not duplicated the winning success of our first litter - in terms of statistics, perhaps it was beginners' luck. NOT! So much of this dog show 'game' - in terms of finishing or specialing - is finding the owners.

We found those owners most recently for Stella's puppies - including Melanie Luten and Carol Witt. They are driven to bring their dogs to their highest potential,

that drive propels Bobbie and "Daisy," and they all work and play with Susan Scoles - who has innate talent in training dogs in all venues. She helped Leslie with the toughest puppyhood ever - Truly was very bad and Susan got her through it - that was 13 years ago!

No one has ever come knocking down our door to buy a show puppy from us - we learned early on that waiting for the show home to appear is NOT a good idea. When a great home comes along, the puppy leaves and if titles are completed, great, if not, that's fine too.

We've bred 14 litters with the Pajant prefix since our first in 1981, offering some heartbreaks, triumphs, and a huge number of fun and funny experiences. Some incredible friendships have been forged because of the dogs and we've seen parts of the country we would not have traveled. Most of these connections remain today, through love of the dogs and the people that found ours!

*A special thank you to Gwen and Peggy Esposito (D'Mascus Dobermans) who have given Bobbie two puppies, one being Stella - to heal the heart and fill the void - after losing best buddies, helping Pajant Dobermans continue to go forward...*

"Stella" - Ch. Alisaton New Face v. Noble House CGC, TDI. Stella was a gift to Bobbie from her breeders - Pat Harder, Peggy Esposito, Carol DePinto and Gwen DeMilta.

## A few proud achievements

**First littermates to be awarded DPCA Awards of Merit:** Multi Group//Multi BISS Am/Can Ch. *Pajant's Curtin Call v. Rockelle* & Multi BIS/Multi BISS Ch. *Pajant's Encore v. Rockelle* WAC.

12-year-old *Pajant* won the 1989 DPCA National Brood Bitch class with her 8.5 year old son Cory and 7 year old daughter Zipper. Judge Dr. Peter Emily said in an interview; "Who could ever tell what she looked like, but did you see what came behind her!?"

**First to produce 3 ROMs in one litter** (to the best of our knowledge) All on 4/11/09

"Daisy" - Am/Int'l Ch *Pajant's Flower Power Alisaton* CD, RE, CGC, TDI, ROM

"Huey" - Am/Int'l Ch. *Pajant's Power of Love Alisaton* CDX, RE, U-CD, CGC, TDI ROM

2009 Top 20 Obedience - "Spirit"  
Am/Int'l/U- Ch. *Pajant's Silent Power Alisaton* CDX, RE, OA, OAJ, TDI, TT, CGC, ROM

## 14 litters with Pajant prefix, fewer than 99 puppies in 28 years:

8 homebred\* - our own bitches; 3 whelped for co-owners; 2 co-owned whelped by owners; 1 litter of 11 out of a Hot Shot daughter brought to our house day before Thanksgiving - owner said she would put her down if we didn't take her - we took her because she was family.'
